

DWC Buckets System

■ In the DWC buckets systems, all the pots are connected to a control unit using 22mm flexible food grade pipe; intergrating patented sealing glands; professional timer units and magnetic float valves.

■ Each bucketsst system comes complete with a set of the necessary pipework, fittings and Tank.

■ The DWC buckets systems are sold with or without an equivalent air kit which includes an air pump, manifold, air-line and air stones.

■ The DWC System is available in the following pot layouts –

- 6 Pot (100L Tank)
- 12 Pot (225L Tank)
- 18 Pot (400L Tank)
- 24 Pot (500L Tank)
- 36 Pot (750L Tank)
